

Planting Kit Order Form

The northern white-cedar, along the river's banks, provides needed shade to maintain the cold water fishery of the Au Sable River. The presence of the cedar sweepers at the water line provides protection for the fish, as well as preservation of the riverbank. However, due to the tremendous deer population there is virtually no natural regrowth of northern white-cedars along the Au Sable River System.

Just think what the Au Sable River System would look like in the future without these majestic cedars along its path.

To ensure the establishment of northern white-cedar trees on your property, we need your help to plant and protect cedar seedlings. These cedar seedlings will begin the reforestation of the natural cedars that have been consumed by the large local deer and hare population of the past several decades.

Volunteer members of the Au Sable River Property Owners Association (ARPOA) will pre-package northern white-cedars seedlings into a "planting kit." Included in this planting kit will be: 10 northern white-cedar seedlings, protective fencing material, wooden stakes, and complete planting instructions.

Please download this application. Fill-in your name and mailing address and the number of kits you wish to order. Orders will be accepted through July 31th. Make your check payable to Au Sable River Property Owners Association and mail to P.O. Box 15, Grayling, MI 49738.

Details information will be mailed directly to you. The kits will be available for planting in September. For additional information, please contact project chairman, Howard N. Johnson at 989-753-6373.

Order Form

I wish to order _____ kit(s), (10 cedar seedlings each) at \$15.00 per planting kit. Total enclosed: \$ _____

Name: _____

Address: _____

City: _____ State _____ Zip _____

Phone: _____ Email: _____

Make check payable to Au Sable River Property Owners Association and mail to P.O. Box 15, Grayling, MI 49738
